ABOUT METASQUID

MetaSquid is a next-gen **metaverse gaming platform** based on the Squid Games that will introduce elimination games to the blockchain.

Our platform will be **community-driven** and provide our users with a safe and **fun environment** to play games on the **BSC blockchain**.

WHY METASQUID

The MetaSquid platform is **created by people** that have been **affected** by numerous rug pulls this past year, and as we are gamers ourselves, we had a vision of creating a **safe crypto metaverse platform** where people can have a fun time in the crypto space to play games, all while earning some money in the process, the so called **play-to-earn model**. We will develop **numerous Squid Games-themed** games that enable our users to battle against each other for that hard-earned **prize pool**, through elimination.

METaverse

We will create an **open MetaSquid environment** where you can walk in-game and **enter buildings** where you can play **various games** with other holders. Pick your favorite game, enter the pool and DON'T get **ELIMINATED!** This will be the **core concept** for all our games, but there will be **many lotteries** and other fun community opportunities to win games.

GAMES

■ Falling Squids

Concept: Falling Squids is a **fall guys-themed** game where you can **win by being the last** (wo)man standing.

■ Red light, Green light

Concept: Red Light, Green Light is a game where you can win by **crossing the finish line as fast as possible** without getting caught.

■ Squid Runner

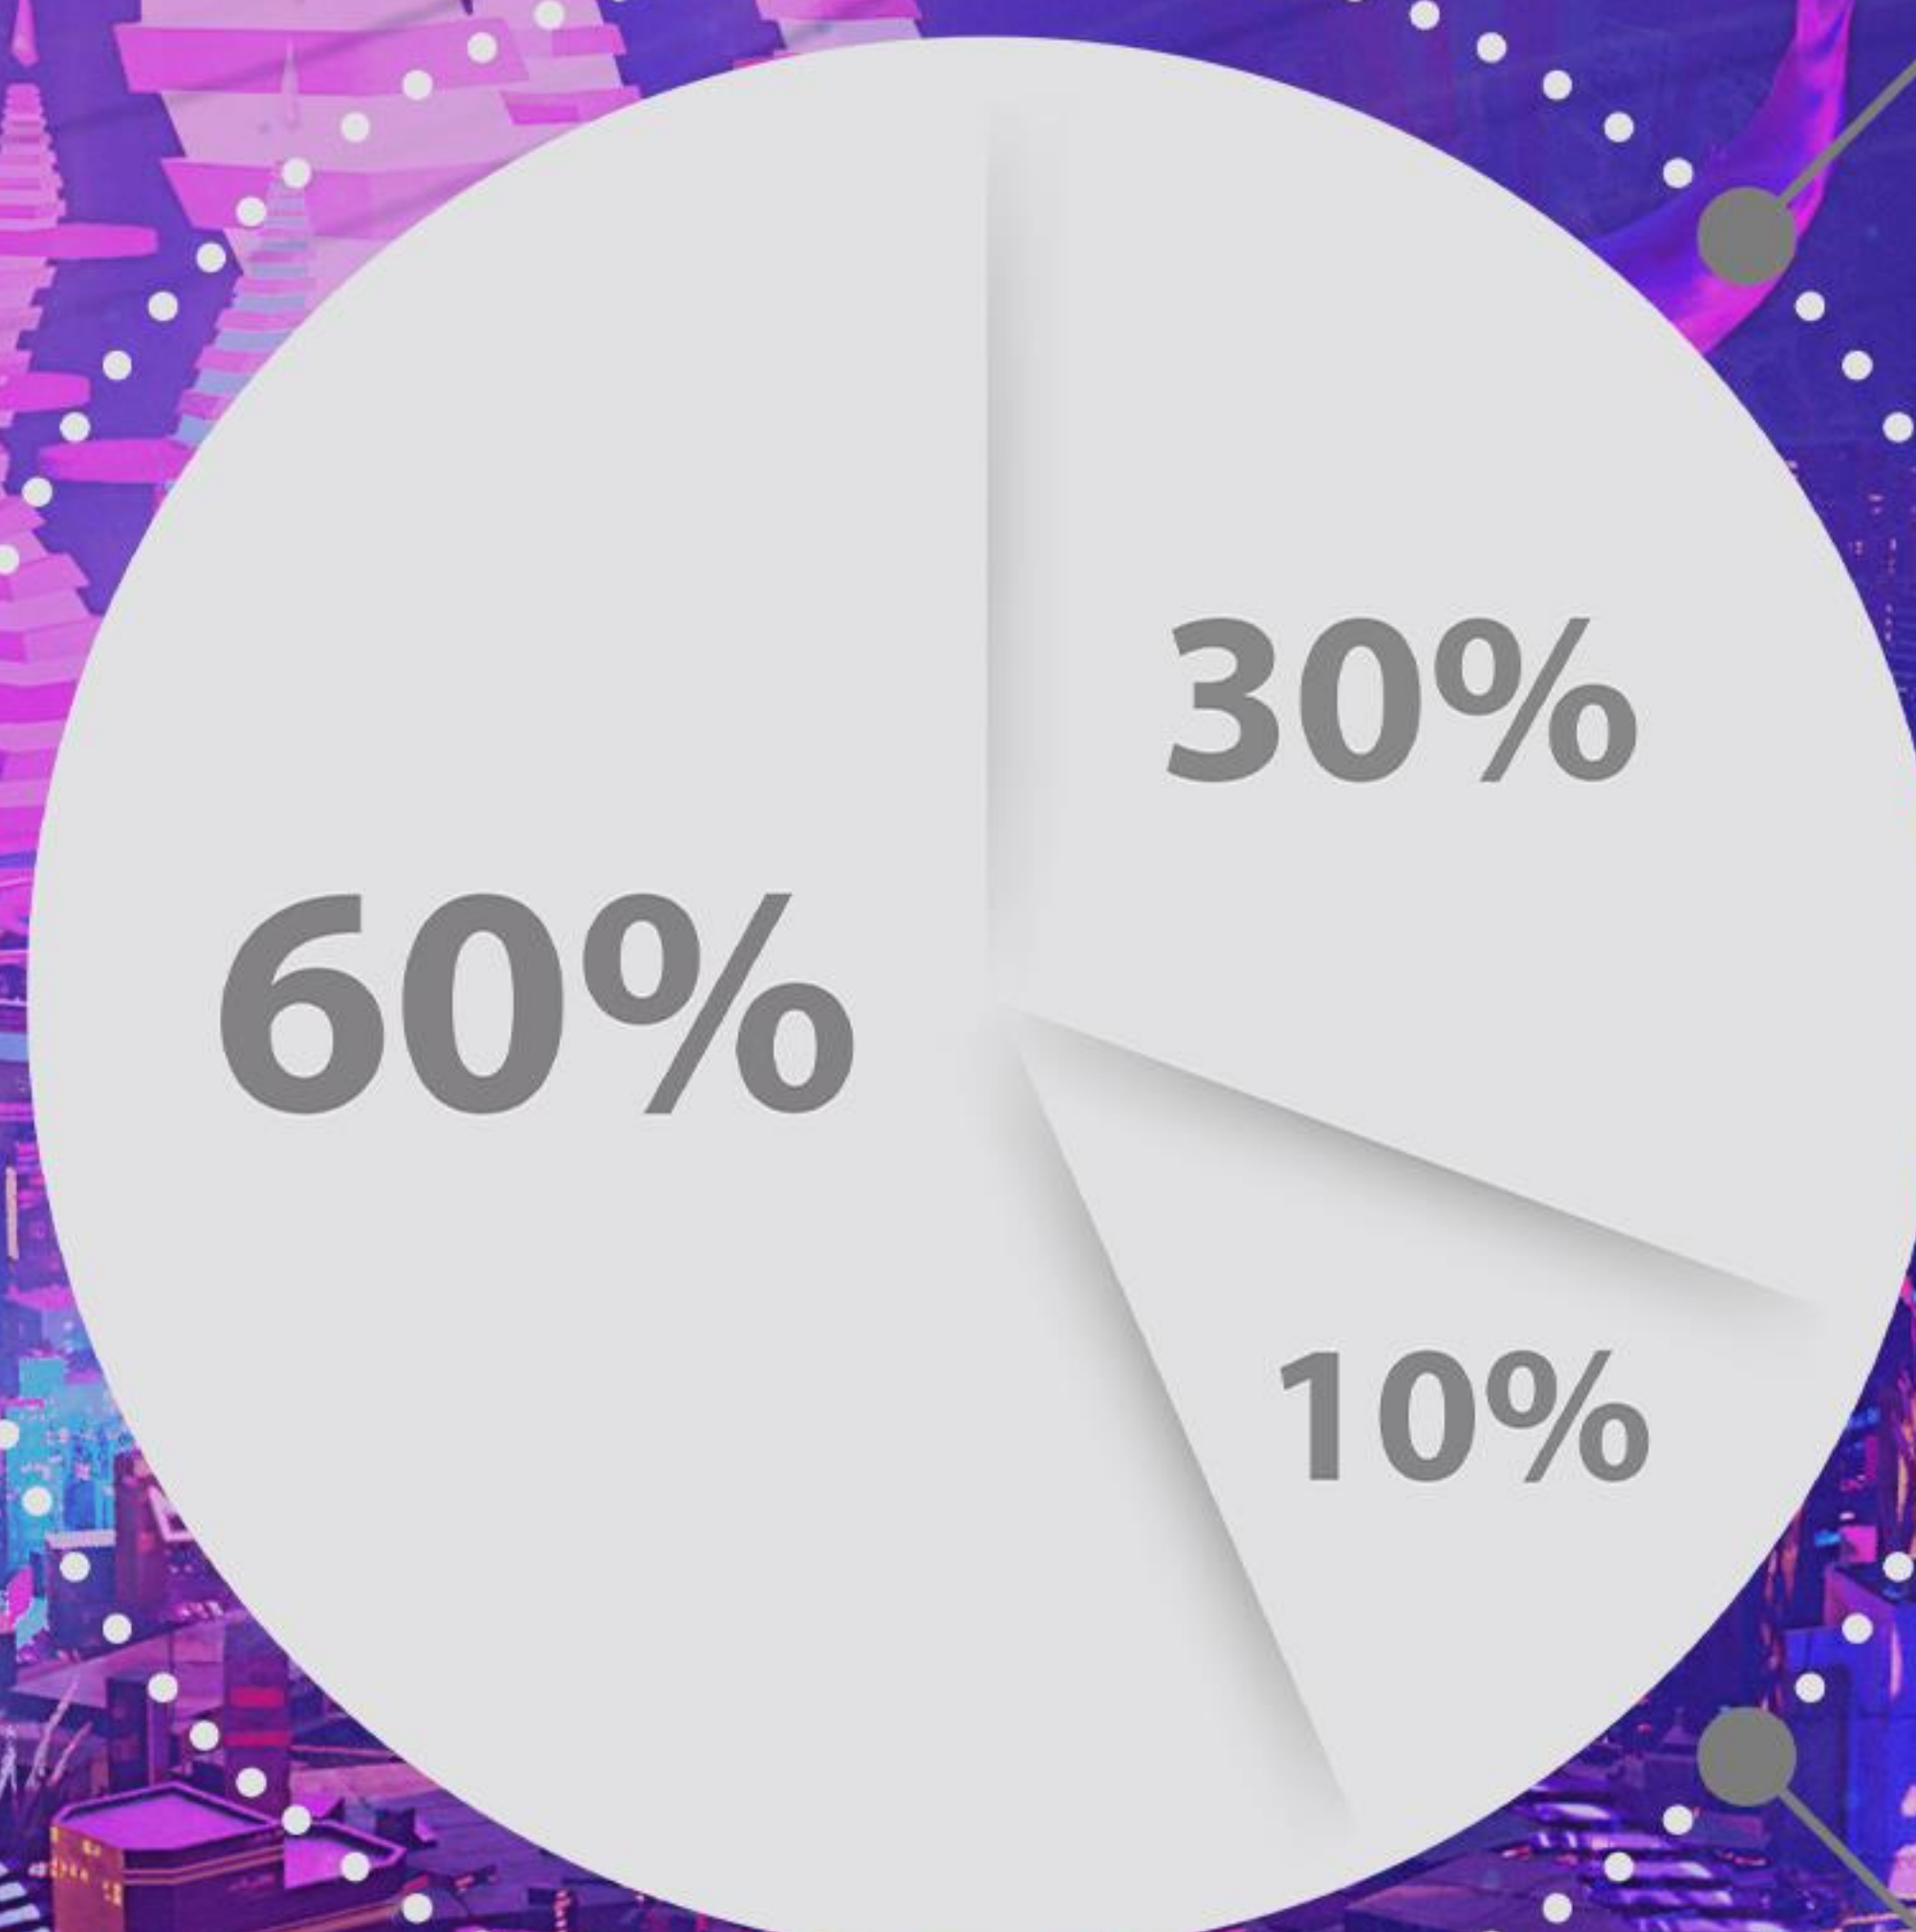

Concept: Squid Runner is a speed running game where you can win by competing for **the fastest time**.

Prizes:

1st Prize: 60%
2nd Prize: 30%
3th Prize: 10%

Entree levels:

\$10
\$50
\$100
\$500
\$1,000
\$10,000

1st Prize

2nd Prize

3rd Prize

FEATURES

100% Rugproof

Our team will do everything to make MetaSquid **as safe as possible** for our users.

Think of **locked liquidity, auditing, buybacks to stabilize the prize**

Games

We will have Squid Games-themed games our users will battle in for a prize pool that is determined or created by the amount that they set.

Metaverse

MetaSquid will create an open environment where you can walk in-game and participate in various games among other holders. Pick your favorite game, enter the pool and try not to get eliminated!

NFTs

Players will be able to buy and sell in-game NFTs which they can use in-game or sell on the marketplace.

Play-to-earn

Our platform is based on the play-to-earn model which we've all come to like these past few years.

NFT Marketplace

Our platform will have a dedicated NFT marketplace where players can buy or sell NFTs to be used in our games.

Security

Our team will be fully doxxed to ensure a sense of security. Some of our team were hurt by the recent "Squid Game" hype/rugpull as well, which inspired us to create a fair project with the same theme in mind done the way it was supposed to be.

Transparency

We will have publicly viewable Marketing, BuyBack, Founders wallets combined with locked liquidity to ensure our investors and users can feel safe.

OUR TOKEN \$SQUIDS

\$SQUID is the currency used by our MetaSquid platform. It is the token that is **used as fuel to sustain the platform** plus it enables **growth and exchange**. It's built on the **Binance Smart Chain (BSC) network**. The \$SGAMES token is designed to provide our users with a **safe and reliable** payment solution on the platform.

AUTO STAKING

Our tokenomics are designed to provide **both stability and reward** holders, while **sustaining the ecosystem's development and growth**. By simply holding \$SQUID, users will be **rewarded with 5%** rewards in **Binance-Peg (BTCB) for each transaction**. These rewards will **automatically be distributed** daily to holders based on their share of the circulation supply.

TOKENOMICS

It's designed for a **stable future** and to be **safe for our users**. We know that marketing and liquidity play an important part for the **growth** of any token, to address this, our fees will **ensure** that this is taken care with **every transaction** that takes place.

Total fee: 15%

2% Prize pool

Will **automatically create a prize pool** which is meant for our users.

3% Buy Back

Will make it possible for us to **perform buybacks** if there is a big price dip.

5% Marketing

This fee will ensure **we can keep growing the project** and attract new users.

5% Rewards Pool

Earn various token rewards like "BTCB"
